

In Assignment 1, we were asked to create a Sankey Diagram about a movement / migration based topic in Seattle. This was a group project. I worked with Chris Miller, Maddux Singh, and Mia Sohn.

We chose to visualize air traffic through SeaTac airport. We collected a dataset and used it to create our diagram.

In this folder you will find:

- **Copy of Welcome to Seattle**
 - This document contained links to our Jotboard, datasets, additional references, our Colab notebook, and a picture of our finished Sankey Diagram
- **Copy of WelcomeToSeattle.ipynb**
 - The notebook in which we created our Sankey visualization, along with links to our other materials
- **Lab 1-3 Project Essay.docx**
 - The essay I submitted for this project
